RELEASE:  
October 15, 2017

## All-new Brandt trailer lineup is a tough act to follow.

Work Ready trailers set a new standard for build quality, durability, and ease of operation.

Brandt Equipment Solutions Ltd. is pleased to announce their all-new lineup of premium Work Ready utility trailers, now available at Brandt's network of John Deere construction and forestry dealerships across Western Canada.

**"This is a very exciting announcement for us,"** says Sanjay Jachak, Brandt's Director, Trailer Sales. **"These units are just the first models in a Work Ready lineup that will ultimately expand to include a broad range of trailer types for a variety of hauling applications."**

The first four models to be introduced by the company are tilt- and ramp-deck commercial trailers, designed for smaller contractors and landscapers with payload capacities ranging from 9000 – 15,700 lbs in tandem and tridem configurations. Deck lengths span 20 – 24 feet with options for bumper pull, pintle, or gooseneck hitches.

**"Our unique engineering and manufacturing approach has allowed us to create products with exclusive features, improved durability, and reliable performance over current industry practice,"** adds Jachak. **"And, our ability to distribute and support them through Brandt's extensive branch network means customers enjoy the best sales, service, and support experience in the industry."**

Brandt has also announced a 0% finance program for the entire WorkReady trailer lineup when combined with the purchase of any John Deere machine. Additional lease and finance options, along with a no-cost, introductory two-year comprehensive extended warranty will also be available.

For more information, please visit [www.brandt.ca](http://www.brandt.ca) or contact **Sanjay Jachak** at (306) 791-8727 or [sjachak@brandt.ca](mailto:sjachak@brandt.ca).
