GP Guarding - Crawler Dozer

Push Material, Not Your Luck.

Protect your crew and equipment with the all-new General Purpose Guarding from Brandt. This dozer guarding package delivers superior protection and visibility, empowering you to push forward with confidence.

① Easy Installation

This design installs quickly and easily so you can get your dozer back to the jobsite sooner:

- Design utilizes factory bolt locations to minimize drilling and enable quick installation to reduce downtime.
- Detailed product manuals with easy-to-understand installation instructions are included with every piece of guarding equipment.
- Purpose-built for Deere Crawler Dozers to ensure seamless compatibility and a professional, OEM appearance.

② Visibility

The window guarding gives you clear sightlines to make working more safely easier:

- Engineered hole pattern makes each hole the maximum allowable size as per safety standards for optimum visibility.
- Laser-cut 3/16" mesh steel provides exceptional visibility without compromising operator protection.
- Incorporated hinges swing screen away from windows for easy cleaning to maintain clear sightlines.

③ Safety

These rugged units protect you and your machine, allowing you to work confidently:

- Window guarding uses solid steel frames with laser cut mesh to increase durability and provide superior protection.
- Hinged full-width rear screen enables easy access and can be used as an emergency exit.
- Limb risers use single-piece formed square tubing to keep branches away from the cab, maximizing operator safety and machine protection.

GP GUARDING - CRAWLER DOZER

FEATURES

Durable Lifting-hook

Allows the guarding to be easily positioned for fast installation.

Optimized Rear-guard Hinge Positioning

Eliminates the visual obstructions common among other designs.

Rubber Isolators

Minimizes vibrations to reduce noise and increase operator comfort.
