

## All-Season Chain Lube

### Description/Benefits

- Designed to provide optimum lubrication of the chain and guide bar of chain saws.
- Special formulations are incorporated into the oils to resist a throw off at the nose of the bar and to help the oil maintain a lubricant film between the bar and chain.
- These oils provide excellent antiwear characteristics to extend chain and bar life.
- Designed for year round use in all temperatures.

### Performance Specification

Specification	All-Season
Item No.	0380
Viscosity, cSt @ 100°C	7.78
Pour Point, °C	-33
