

Solvent

Performance Specification

Specification	J20D
Appearance	Bright/Clean
Aromatic Content (Vol%)	19.4
Colour, Saybolt	+30
Distillation IBP, °C	158.3
Distillation Dry Point, °C	195.0
Flash Point, °C	43.35
Specific Gravity @ 15.5°C, kg/L	0.790
Benzene Content (VPPM)	9
Kauri Butanol Value	38.3
Sulphur (WPPM)	<0.1

Safety Precautions

The following precautions apply generally in handling and using ValPar Solvent

- Avoid inhalation of solvent vapours. Work with solvents only in a well ventilated environment
- Avoid direct contact with skin. All solvents irritate the skin on prolonged contact because of their solvency for natural fats and oils.

Danger

Harmful or fatal if swallowed.

First Aid Treatment

Contains petroleum distillate. If swallowed, do not induce vomiting. *Call physician immediately.*

Flammable

Keep away from open flame or sparks.
