FLEXIBLE FINANCING

Custom financing solutions available to best suit your business. *Ask us for details.*

Don't Stop When You're On a Roll.

The all-new S400 fixed roll scissorneck trailer from Brandt gives you the flexibility to get more done — no matter where the road takes you.

① Easier to Own

This trailer is backed by the best support in the business to make ownership stress-free:

- Flexible purchasing options include rentals, rental purchasing, leasing, and conventional financing.
- Brandt's advanced paint protection looks better, lasts longer, and inhibits corrosion for longer trailer life and increased resale value.
- Reliable design and long-lasting components reduce total cost of ownership.

② Easier to Operate

The S400 enables you to easily load and unload heavy payloads so you can get more done:

- Knife-edge gooseneck profile makes it easy to load low ground-clearance vehicles over the front of the trailer.
- Optional kicker rolls are strategically placed between the first and second axles to make loading and unloading short payloads easier.
- Winch and J-hook positioning alternates from side to side, making securing loads easier and more efficient from either side of the trailer.

③ Safer

This trailer maximizes your safety in all conditions, allowing you to work confidently:

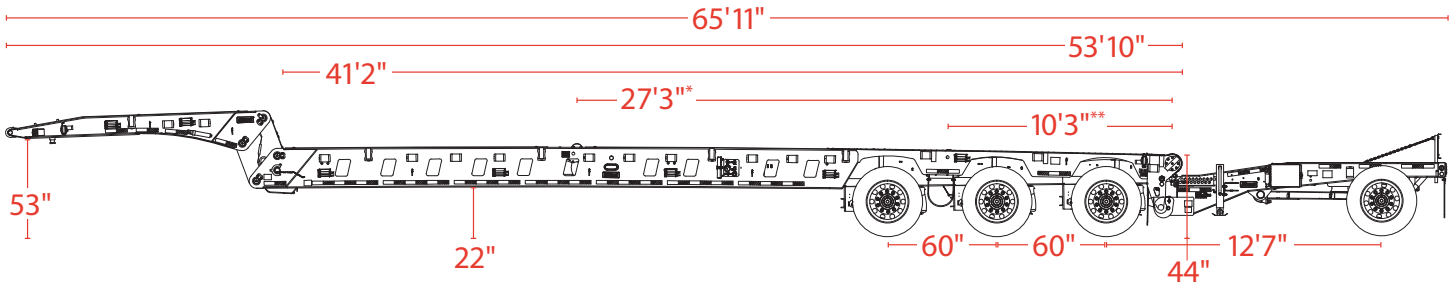

- Premium fir decking provides better traction for the operator in wet and frozen conditions.
- Work lights are placed in important loading and unloading areas, including in the control box.
- Remotely mounted air-tank drain valves make maintenance safer and faster.

Powerful Value. **Delivered.**

SCISSORNECK TRAILER DIMENSIONS

Shown with optional C10 booster
 *Belly roll position
 **Kicker roll position

FEATURES

Full Deck 9' Width Fixed-Roll

Uses common dimensions that operators are familiar with to ensure easy handling.

Illuminated Control Box

Makes the trailer easier and safer to operate.

Fir Decking

Allows easy and inexpensive replacement while minimizing tare weight and maximizing safety.

Industry-Exclusive Powder-Coat Finish

Looks better, lasts longer, and inhibits corrosion to increase trailer life and resale value.

Gooseneck Design and Multiple King-Pin Settings

Allows the trailer to utilize tandem- and tri-drive trucks for superior flexibility.

Single-Axle Booster Compatibility

Makes it easy to adapt to restrictions and keep working during road ban seasons.
