FLEXIBLE FINANCING

Custom financing solutions available to best suit your business. *Ask us for details.*

Fear No Payload.

Brandt's S600 and S700 fixed-roll scissorneck trailers deliver versatile productivity that helps you dominate the hardest jobs — whatever they may be. Whether you're hauling rig components, wellsite shacks, or heavy off-road equipment, these trailers are equipped to handle the task quickly and effectively.

① Easier to Own

These trailers are backed by the best support in the business to make ownership stress-free:

- Flexible purchasing options include rentals, rental purchasing, leasing, and conventional financing.
- Brandt's advanced paint protection looks better, lasts longer, and inhibits corrosion for longer trailer life and increased resale value.
- Reliable design and long-lasting components reduce total cost of ownership.

② Easier to Operate

The S600 and S700 load quickly and easily so you can hit the road sooner:

- Knife-edge gooseneck profile makes it easy to load low ground-clearance vehicles over the front onto the trailer.
- Optional kicker rolls are placed between the first and second axles to reduce friction, making loading and unloading short payloads easier and more efficient.
- Winch and J-hook positioning alternates from side to side, making securing loads easier and more efficient from either side of the trailer.

③ Safer

These trailers maximize your safety in all conditions, allowing you to work confidently:

- Recessed steel plate on the center of the gooseneck prevents winch tackle from damaging the decking.
- Work lights are placed in important loading and unloading areas, including in the control box to make operation easier and safer in adverse conditions.
- Remotely-mounted air-tank drain valves make maintenance safer and faster.

Powerful Value. **Delivered.**

SPECIFICATIONS S600/S700 TRAILERS

BASE UNIT KEY SPECIFICATIONS		
	S600	S700

FIXED-ROLL SCISSORNECK TRAILERS DIMENSIONS

S600

S700

FEATURES

Full Deck 10' Width Fixed-roll

Comes complete with support rollers to maximize durability.

Illuminated Control Box

Makes these trailers easier and safer to operate.

Gooseneck Design and Multiple King-pin Settings

Allows these trailers to utilize tandem- and tri-drive trucks for superior flexibility.

Single- and Tandem-Axle Booster Compatibility

Makes it easy to adapt to restrictions and keep working during road ban seasons.

Heavy-duty 3/8" Full-length Wheel Covers

Protects trailer suspension.

Swingout Wide-load Lights

Ensures safe transportation on roadways.

Tractor Brake-signal Boost

Increases braking performance.

Low 42" Loaded Deck Height

Prevents potential over-height issues.

Axle Air Lift

Allows these trailers to work on three axles, reducing wear and maintenance.
