

# Enhance Your Profitability With All-New JDLink™ Features!

John Deere's updated JDLink™ Dashboard delivers best-ever productivity for your fleet with more valuable machine insights than ever in a fast, reliable, easy-to-use format.

## NEW FEATURES:

### Machine Analyzer

Edit pre-set views in Machine Analyzer to view and compare specific data points.

### JDLink™ Mobile

New Dark Mode color scheme can be turned on from the app User Settings menu.

### Notification Center

Email alerts feature a clickable map to locate and check you machines for alert updates.

### JDLink™ Dashboard

Control which machines you track with custom ID tags, allowing filtering to ensure only tagged units are visible [release date: TBD].

### Ultimate Data

View multiple machine data points for easy identification of trends.

Powerful Value. **Delivered.**

The Brandt logo, consisting of three red diagonal bars followed by the word "Brandt" in a bold, italicized, sans-serif font.

## You Benefit From:

- Additional dealer support from Brandt utilizing JDLINK™ data
- Two-way communication with your machines and Brandt's service department to reduce diagnostic time for repairs
- API machine data feeds directly into your business systems using JDLINK™ software
- Extensive fleet monitoring and reporting capabilities, including FleetWise™
- Predictive monitoring of your equipment using Deere Expert Alerts

## Why Is It Important To Update Your JDLINK™ Account? A valid JDLINK™ account allows you to...

- Actively monitor your fleet and receive status reports
- Access Service Advisor Remote and Expert Alert capabilities via Brandt
- Track long-term machine data trends
- Manage costs effectively through billing-by-the-hour
- Proactively track maintenance intervals

## How Do You Update JDLINK™?

- If not already done, create a login into JDLINK™
- Accept the terms and conditions
- Confirm staffing permissions and machines are correct in the system
- Add Brandt as a partner so we can assist in any troubleshooting in the future

To enhance your fleet's productivity, update your JDLINK™ account at
